

Help us clean up space!

Calling all Space Cadets!

We need your help to help us get rid of all of the junk in space!

The most creative ideas will be published on our website and the winning engineer/artist will get their very own custom Leo plushie, with videos of your Leo 2.0 floating in zero gravity with us.

Draw your best ideas for cleaning up old satellites and pieces of debris in space. Don't forget to colour in Leo 2.0, give them a new name and maybe even an outfit!

Good luck!

Show us your design!

My name is

and this is how we're
going to clean up space!

Name: _____

Class: _____
